

In the Name of Allah, the Most Gracious, the Most Beneficent

DONATE TO SAVE LIVES

Zahedan University of Medical Sciences

Educating health & medical professionals and changing lives since 1986

Zahedan University of Medical Sciences

The Zahedan University of Medical Sciences and Health Services (ZAUMS) founded in 1986, currently has more than 400 permanent faculty members in the ranks of Professors, Associate Professors, Assistant Professors, and Lecturers on staff. Zahedan University of Medical Sciences, like all universities of medical sciences in the Islamic Republic of Iran, in addition to educational and research activities, is also responsible for providing primary health care and treatment services to the residents of the area covered by university.

In addition to routine specialty and sub-specialty treatment services, ZAUMS also offers cochlear implantation, infertility treatment services, kidney and corneal transplantation and other specialized ophthalmic treatment services. Whether you choose to invest in our facilities, medical care, and student life, academic and research programs, you are advancing ZAUMS's mission. This means better serving those who need it most, fostering innovation, and generating new knowledge and information to improve the quality of life in the communities we serve.

You can make donations of any amount to ZAUMS. Every donation helps. There are several ways for you to contribute, depending on your interests and ability, as outlined in the following pages.

SUPPORT US

International and national philanthropists are important healthcare funders who can effectively address unmet needs in a country's healthcare system, filling the gap and improving access to health and treatment services.

Their contributions make a big difference in providing equitable essential medical and treatment services, as well as primary health care, by improving health infrastructure in underprivileged communities in Sistan and Baluchestan Province.

Giving Opportunities

We treat people living in places where it is difficult or impossible to get health and medical care. Your donations will change lives and help to ensure thousands of patients to continuously receive necessary medical services.

There are numerous ways to support ZAUMS in fulfilling its mission to provide quality care to those people that need the most.

Capital Projects

Donations towards new buildings and facilities leave a lasting mark in our university and help ensure that ZAUMS remains at the forefront of health and medical care delivery. Our team will work with you to match your investment with the University's priorities.

ZAUMS is continuously investing in new buildings and facilities for providing quality public health and medical care. These range from a health houses, delivery facilities and comprehensive health centers to health post, comprehensive health centers and hospitals.

Donate medical devices and equipment

Some hospitals and public health units in Sistan and Balouchestan Province lack enough healthcare equipment and medical supplies. Remember, good infrastructure without the right equipment is useless. The donation of this equipment will enable us to improve access to quality healthcare services to underprivileged communities.

We are welcoming charity funds for the purchase of replacement or additional medical equipment. This enables the clinical and research teams to take advantage of advances in medical science and technology to deliver better care to the patients and to replace old equipment that is no longer fit for purpose.

Support for needy patients

The current situation of our society, despite all the efforts made so far, has witnessed various inadequacies in the health of the society. In addition to the pain and suffering, the disease of the needy people is also followed by catastrophic costs, which are beyond their means.

This is especially the case for patients with hard-to-cure diseases, pregnant women, and sick babies from around the province who are come to the hospitals affiliated with ZAUMS for advanced medical treatment. The benevolent people and dear benefactors can help the neediest families in this way and create kindness in existence.

Supporting Teaching and Research

In the year 2023, ZAUMS was ranked 17th in terms of medical sciences publications based on the webometric ranking system of the Iran's Ministry of Health among 65 universities and schools of medical sciences in the country.

ZAUMS prides itself on its high-quality teaching and high-impact research. Your gift in support of our faculty is vital to our efforts to advance knowledge and provide students with the best instruction possible.

Donors can provide critical support to faculty across our schools and research center by funding cutting edge and innovative research that will help us serve people in need through research into new treatment and educating more health care providers.

Your support and contributions will enable us to meet our goals and improve conditions. Your generous donation will fund our mission.
